# Set course for success $Super Lube^{\mathbb{R}}$

### Super Lube<sup>®</sup> - The Marine Choice

Super Lube<sup>®</sup> has a wide range of high-quality, premium-level lubricants that help protect marine equipment and engines as well as increase efficiency.

We are dedicated to providing our customers with products that ensure they can handle whatever the ocean throws at them. We make sure that your boat will operate exactly as it should in the harshest conditions, no matter the application. From sail tracks to engines, tugs, winches, and more, Super Lube<sup>®</sup> gets the job done.

### From Small to Large: We Can Lubricate It All

No matter the size of category of ship, there are parts on your boat that need lubrication.

Keeping your vessel properly lubricated is critical to prolonging the life and ensuring quality performance, and yet it is an aspect of boat maintenance that is grossly overlooked. Your furling gears, metal ball bearings or turnbuckle threads may have worn down since the last time you used them, that means it's the perfect time for Super Lube<sup>®</sup>.

From steering systems, impellers, anchor swivels and more, boats big and small have dozens of parts that benefit from Super Lube<sup>®</sup>.

## Super Lube<sup>®</sup> - A True Multi-Purpose Lubricant

### **Key Features:**

- \* Clean/Clear
- \* Food Grade
- \* Non-staining
- \* High Dielectric Strength
- \* Prevents rust and corrosion
- \* Impervious to water and saltwater
- \* Viscosity stable
- \* Extends equipment life
- \* Reduces maintenance
- \* NSF rated H1
- \* Safe in potable water
- \* Wide continuous operating temperature range (-45°F to 450°F)

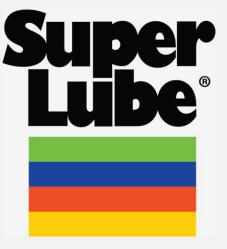

### **Advantages to Lubricant Consolidation**

Rather than have a different type of Lubricant for every application, Super Lube<sup>®</sup> creates Multi-Purpose Lubricants that are exactly that: Multi-Purpose. When you hold a cartridge of Super Lube<sup>®</sup> Multi-Purpose Synthetic Grease with Syncolon<sup>®</sup> (PTFE), you are also holding a cartridge of High Temp Grease, Low Temp Grease, Extreme Pressure Grease, and more.

There are a number of advantages to Lubricant Consolidation, including but not limited to:

- Reduced Chance of Cross Contamination
- Reduced Inventory Space
- Increased Inventory Turnover
- Reduced Purchasing Costs
- Simplified Employee Training
