# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

#### 1.1 Product identifier

· Trade name: Super Lube® Dri Lube Bike Lubricant

#### · Article number: No other identifiers

• **1.2 Relevant identified uses of the substance or mixture and uses advised against** No further relevant information available.

 Application of the substance / the mixture Penetrating oil Lubricant

#### · 1.3 Details of the supplier of the Safety Data Sheet

Manufacturer/Supplier: Kano Laboratories LLC 24 DaVinci Dr., P.O. Box 405 Bohemia, NY 11716 Telephone: 631-567-5300 Email: info@super-lube.com

#### 1.4 Emergency telephone number:

ChemTel

1-800-255-3924 (US/Canada), 1-813-248-0585 (International), 1-300-954-583 (Australia), 0-800-591-6042 (Brazil), 400-120-0751 (China), 000-800-100-4086 (India), 800-099-0731 (Mexico)

# **SECTION 2: Hazards identification**

#### · 2.1 Classification of the substance or mixture

#### · Classification according to Regulation (EU) 2015/830

Classifications listed also are applicable to the OSHA GHS Hazard Communication Standard (29CFR1910.1200).

health hazard

Asp. Tox. 1 H304 May be fatal if swallowed and enters airways.

#### · Information concerning particular hazards for human and environment:

The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

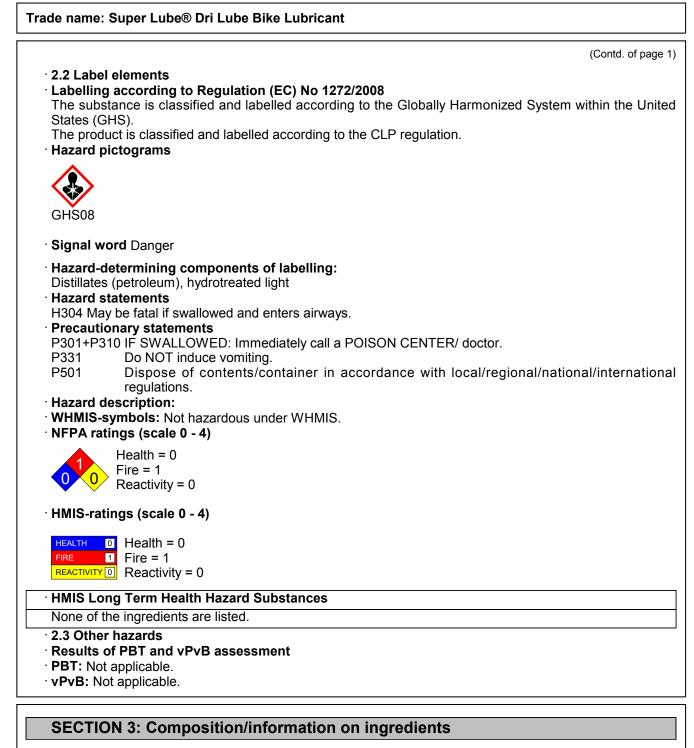

#### · Classification system:

The classification is according to the latest editions of the EU-lists, and extended by company and literature data.

The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company.

(Contd. on page 2)

Revision: April 1, 2024

· 3.2 Mixtures

• **Description:** Mixture of substances listed below with nonhazardous additions.

(Contd. on page 3)

Revision: April 1, 2024

Later observation for pneumonia and pulmonary oedema.

#### **SECTION 5: Firefighting measures**

5.1 Extinguishing media
Suitable extinguishing agents: Extinguishing powder. Do not use water. Carbon dioxide Foam
For safety reasons unsuitable extinguishing agents: Water
5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire.
5.3 Advice for firefighters
Protective equipment: Wear self-contained respiratory protective device. Wear fully protective suit.
Additional information Eliminate all ignition sources if safe to do so.

#### **SECTION 6: Accidental release measures**

· 6.1 Personal precautions, protective equipment and emergency procedures Use respiratory protective device against the effects of fumes/dust/aerosol. Remove persons from danger area. Particular danger of slipping on leaked/spilled product. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources. 6.2 Environmental precautions: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. 6.3 Methods and material for containment and cleaning up: Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders). Pick up mechanically. Send for recovery or disposal in suitable receptacles. Dispose contaminated material as waste according to item 13. 6.4 Reference to other sections See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### **SECTION 7: Handling and storage**

#### · 7.1 Precautions for safe handling

Keep away from heat and direct sunlight. Avoid splashes or spray in enclosed areas. Prevent formation of aerosols.

Viscosity: Dynamic: Kinematic: 9.2 Other information	Not determined. Not determined. No further relevant information available.	

# · 10.1 Reactivity

10.2	Che	emica	l sta	bility

#### • Thermal decomposition / conditions to be avoided:

No decomposition if used and stored according to specifications.

10.3 Possibility of hazardous reactions

Reacts with strong acids.

Reacts with strong oxidising agents.

Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised. Used empty containers may contain product gases which form explosive mixtures with air.

Toxic fumes may be released if heated above the decomposition point.

# • 10.4 Conditions to avoid

Keep away from heat and direct sunlight.

Store away from oxidising agents.

• 10.5 Incompatible materials: No further relevant information available.

10.6 Hazardous decomposition products:

Carbon monoxide and carbon dioxide

Hydrocarbons

### **SECTION 11: Toxicological information**

#### · 11.1 Information on toxicological effects

#### • Acute toxicity:

#### · LD/LC50 values relevant for classification:

#### 64742-47-8 Distillates (petroleum), hydrotreated light

Oral LD50 > 5000 mg/kg (rat)

- Primary irritant effect:
- on the skin: No irritant effect.
- · on the eye: Slight irritant effect on eyes.
- Additional toxicological information:

At long or repeated contact with skin it may cause dermatitis due to the degreasing effect of the solvent. The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

Acute effects (acute toxicity, irritation and corrosivity):

May be fatal if swallowed and enters airways.

- May be harmful if swallowed.
- **Repeated dose toxicity:**

Repeated exposure may cause skin dryness or cracking.

# **SECTION 12: Ecological information**

#### · 12.1 Toxicity

- · Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability No further relevant information available.
- · 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- Ecotoxical effects:
- · Remark:

Due to mechanical actions of the product (e.g. agglutinations) damages may occur.

The product is oxygen-consuming. The declared action may be partly caused by lack of oxygen.

#### Additional ecological information:

#### · General notes:

This statement was deduced from the properties of the single components.

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

#### 12.5 Results of PBT and vPvB assessment

- · PBT: Not applicable.
- · vPvB: Not applicable.

· 12.6 Other adverse effects No further relevant information available.

(Contd. on page 9)

#### **SECTION 13: Disposal considerations**

#### · 13.1 Waste treatment methods

#### · Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Contact waste processors for recycling information.

Product is recyclable as a waste oil. Deliver unused and/or contaminated product to waste oil collectors. Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

#### · Uncleaned packaging:

• **Recommendation:** Disposal must be made according to official regulations.

SECTION 14: Transport information	n
· 14.1 UN-Number	
DOT, ADR, ADN, IMDG, IATA	Not Regulated
14.2 UN proper shipping name	-
