Revision: April 1, 2024

(Contd. of page 1) Information concerning particular hazards for human and environment: The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version. Warning! Pressurised container. Classification system: The classification is according to the latest editions of the EU-lists, and extended by company and literature data. The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company. Additional information: 0 percent of the mixture consists of component(s) of unknown toxicity 2.2 Label elements Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. ### Revision: April 1, 2024

(Contd. of page 2)

### Trade name: Super Lube® Multi-Purpose Industrial Synthetic Lubricant with Syncolon® (PTFE) (Aerosol)

### · Additional information:

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use.

Do not spray on a naked flame or any incandescent material. Keep away from sources of ignition - No smoking.

- · Hazard description:
- · 2.3 Other hazards
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · **vPvB:** Not applicable.

#### **SECTION 3: Composition/information on ingredients** · 3.2 Mixtures · Description: Mixture of substances listed below with nonhazardous additions. · Dangerous components: CAS: 64742-47-8 Distillates (petroleum), hydrotreated light 25-50% EINECS: 265-149-8 Asp. Tox. 1, H304 Index number: 649-422-00-2 CAS: 142-82-5 heptane 25-50% EINECS: 205-563-8 🍄 Flam. Liq. 2, H225 Index number: 601-008-00-2 😵 Asp. Tox. 1, H304 Aquatic Acute 1, H400; Aquatic Chronic 1, H410 A Skin Irrit. 2, H315; STOT SE 3, H336 carbon dioxide CAS: 124-38-9 2,5-10% EINECS: 204-696-9 Press. Gas L, H280 White Mineral Oil 2,5-10% CAS: 8042-47-5 EINECS: 232-455-8 😵 Asp. Tox. 1, H304 CAS: 57-55-6 Propylene Glycol < 2,5% EINECS: 200-338-0 substance with a Community workplace exposure limit • Additional information: For the wording of the listed risk phrases refer to section 16.

### **SECTION 4: First aid measures**

#### · 4.1 Description of first aid measures

### · General information:

Immediately remove any clothing soiled by the product. Take affected persons out into the fresh air.

### • After inhalation:

Supply fresh air; consult doctor in case of complaints.

Provide oxygen treatment if affected person has difficulty breathing.

### • After skin contact:

Immediately wash with water and soap and rinse thoroughly.

(Contd. on page 4)

Revision: April 1, 2024

# Trade name: Super Lube® Multi-Purpose Industrial Synthetic Lubricant with Syncolon® (PTFE) (Aerosol) (Contd. of page 3) If skin irritation continues, consult a doctor. · After eve contact: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. · After swallowing: Unlikely route of exposure. Rinse out mouth and then drink plenty of water. Do not induce vomiting: call for medical help immediately. A person vomiting while laying on their back should be turned onto their side. 4.2 Most important symptoms and effects, both acute and delayed Irritant to skin and mucous membranes. Frostbite Irritating to eyes and skin. Coughing Dizziness Breathing difficulty Nausea Hazards Danger of pulmonary oedema. Danger of pneumonia. Danger of impaired breathing. 4.3 Indication of any immediate medical attention and special treatment needed If swallowed, gastric irrigation with added, activated carbon. If swallowed or in case of vomiting, danger of entering the lungs. Medical supervision for at least 48 hours. If necessary oxygen respiration treatment. Later observation for pneumonia and pulmonary oedema. Treat frost-bitten areas appropriately. **SECTION 5: Firefighting measures**

- 5.1 Extinguishing media
- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents: Water with full jet

### • 5.2 Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

Danger of receptacles bursting because of high vapour pressure when heated.

- 5.3 Advice for firefighters
- · Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

### · Additional information

Eliminate all ignition sources if safe to do so.

Leaking gas fire: Do not extinguish, unless leak can be stopped safely.

Cool endangered receptacles with water fog or haze.

(Contd. on page 5)

Revision: April 1, 2024

### Trade name: Super Lube® Multi-Purpose Industrial Synthetic Lubricant with Syncolon® (PTFE) (Aerosol)

(Contd. of page 4)

### SECTION 6: Accidental release measures · 6.1 Personal precautions, protective equipment and emergency procedures Use respiratory protective device against the effects of fumes/dust/aerosol. Particular danger of slipping on leaked/spilled product. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources. Protect from heat. · 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water. Inform respective authorities in case of seepage into water course or sewage system. 6.3 Methods and material for containment and cleaning up: Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders). Pick up mechanically. Dispose contaminated material as waste according to item 13. Do not flush with water or aqueous cleansing agents Send for recovery or disposal in suitable receptacles. 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. SECTION 7: Handling and storage · 7.1 Precautions for safe handling Use only in well ventilated areas. Keep away from heat and direct sunlight. Avoid splashes or spray in enclosed areas. Information about fire - and explosion protection: Protect against electrostatic charges. Emergency cooling must be available in case of nearby fire. Keep ignition sources away - Do not smoke. Do not spray onto a naked flame or any incandescent material. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use. 7.2 Conditions for safe storage, including any incompatibilities · Storage: · Requirements to be met by storerooms and receptacles: Store in a cool location. Observe official regulations on storing packagings with pressurised containers. Provide ventilation for receptacles. Avoid storage near extreme heat, ignition sources or open flame. Information about storage in one common storage facility: Store away from oxidising agents. · Further information about storage conditions: Store in a cool place. Heat will increase pressure and may lead to the receptacle bursting. (Contd. on page 6)

### **SECTION 10: Stability and reactivity**

· 10.1 Reactivity

- 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided:
- Danger of receptacles bursting because of high vapour pressure when heated.

### 10.3 Possibility of hazardous reactions

- Develops readily flammable gases/fumes.
- Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised.
- Extremely flammable aerosol.

Used empty containers may contain product gases which form explosive mixtures with air.

- Reacts with strong oxidising agents.
- Toxic fumes may be released if heated above the decomposition point.

# 10.4 Conditions to avoid

- Keep ignition sources away Do not smoke.
- Keep away from heat and direct sunlight.
- Store away from oxidising agents.

(Contd. on page 9)

Trade name: Super Lube® Multi-Purpose Industrial Synthetic Lubricant with Syncolon® (PTFE) (Aerosol) (Contd. of page 8) 10.5 Incompatible materials: No further relevant information available. • 10.6 Hazardous decomposition products: Carbon monoxide and carbon dioxide **SECTION 11: Toxicological information** · 11.1 Information on toxicological effects · Acute toxicity: · LD/LC50 values relevant for classification: 64742-47-8 Distillates (petroleum), hydrotreated light > 5000 mg/kg (rat) Oral LD50 Dermal LD50 >2000 mg/kg (rabbit) 142-82-5 heptane LD50 Oral > 5000 mg/kg (rat) (Estimate) Inhalative LC50/4h 103 mg/l (rat) Primary irritant effect: · on the skin: Irritant to skin and mucous membranes. · on the eye: Irritating effect. • Sensitisation: No sensitising effects known. · Additional toxicological information: Irritant Inhalation of concentrated vapours as well as oral intake will lead to anaesthesia-like conditions and headache, dizziness, etc. The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version: • Acute effects (acute toxicity, irritation and corrosivity): Vapours have narcotic effect. Irritating to skin. May be fatal if swallowed and enters airways. **Repeated dose toxicity:** May cause damage to organs through prolonged or repeated exposure. **SECTION 12: Ecological information** · 12.1 Toxicity · Aquatic toxicity: Toxic for aquatic organisms • **12.2 Persistence and degradability** No further relevant information available. • 12.3 Bioaccumulative potential No further relevant information available. · 12.4 Mobility in soil No further relevant information available. · Ecotoxical effects: · Remark: Toxic for fish · Additional ecological information: · General notes: Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground. Also poisonous for fish and plankton in water bodies. Toxic for aquatic organisms (Contd. on page 10)

Revision: April 1, 2024

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water

### 12.5 Results of PBT and vPvB assessment

• **PBT:** Not applicable.

· vPvB: Not applicable.

12.6 Other adverse effects No further relevant information available.

# **SECTION 13: Disposal considerations**

### · 13.1 Waste treatment methods

· Recommendation

Contact waste processors for recycling information.

Must not be disposed together with household garbage. Do not allow product to reach sewage system. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

· Uncleaned packaging:

• Recommendation: Disposal must be made according to official regulations.

# **SECTION 14: Transport information** · 14.1 UN-Number · DOT, ADR, IMDG, IATA UN1950 · 14.2 UN proper shipping name Limited Quantity for packages less than 30 kg (66 lb) and inner packagings less than 1 L (0.3 gal).
