

Revision: April 1, 2024

### **1** Identification

· Product identifier

· Trade name: Super Lube® Metal Protectant and Corrosion Inhibitor Aerosol

· Article number: No other identifiers

#### · Recommended use and restriction on use

- Recommended use:
- Penetrating oil Lubricant
- Restrictions on use: See Sections 8 and 10 for further information.
- Details of the supplier of the Safety Data Sheet
   Manufacturer/Supplier: Kano Laboratories LLC
   24 DaVinci Dr., P.O. Box 405

Bohemia, NY 11716 Telephone: 631-567-5300 Email: info@super-lube.com

### 3 Composition/information on ingredients

#### · Chemical characterization: Mixtures

· Description: Mixture of the substances listed below with nonhazardous additions.

· Dangerous	components:	
64742-47-8	Distillates (petroleum), hydrotreated light	50-100%
	🚯 Asp. Tox. 1, H304	
142-82-5	heptane	10-25%
	<ul> <li>Flam. Liq. 2, H225</li> <li>Asp. Tox. 1, H304</li> <li>Skin Irrit. 2, H315; STOT SE 3, H336</li> </ul>	
124-38-9	carbon dioxide	2.5-10%
ا م مر خانه ام ۸		

#### · Additional information:

For the listed ingredients, the identity and exact percentages are being withheld as a trade secret.

#### 4 First-aid measures

#### · Description of first aid measures

### General information:

Immediately remove any clothing soiled by the product.

Take affected persons out into the fresh air.

### · After inhalation:

Supply fresh air; consult doctor in case of complaints.

Provide oxygen treatment if affected person has difficulty breathing.

### · After skin contact:

Immediately wash with water and soap and rinse thoroughly.

If skin irritation continues, consult a doctor.

### · After eye contact:

Remove contact lenses if worn.

(Contd. on page 4)

Revision: April 1, 2024

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.  After swallowing: Unlikely route of exposure. Rinse out mouth and then drink plenty of water. Do not induce vomiting; immediately call for medical help. A person vomiting while lying on their back should be turned onto their side. Information for doctor: Most important symptoms and effects, both acute and delayed Frostbite Irritating to eyes and skin. Coughing Breathing difficulty Dizziness Nausea Danger Danger of pulmonary edema. Danger of impaired breathing. Indication of any immediate medical attention and special treatment needed If swallowed, gastric irrigation with added, activated carbon. If swallowed or in case of vomiting, danger of entering the lungs. Medical supervision for at least 48 hours. If necessary oxygen respiration treatment. Later observation for pneumonia and pulmonary edema. Treat frost-bitten areas appropriately. <b>5 Fire-fighting measures</b> Extinguishing media Suitable extinguishing agents: CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.		(Contd. of page

· Suitable extinguishing agents:	or no nghàng moasares	
· Suitable extinguishing agents:		
CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.	· Extinguishing media	

· Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

Danger of receptacles bursting because of high vapor pressure if heated.

#### Advice for firefighters

· Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

Additional information

Eliminate all ignition sources if safe to do so.

Leaking gas fire: Do not extinguish, unless leak can be stopped safely.

Cool endangered receptacles with water fog.

### 6 Accidental release measures

• Personal precautions, protective equipment and emergency procedures Use respiratory protective device against the effects of fumes/dust/aerosol.

(Contd. on page 5)

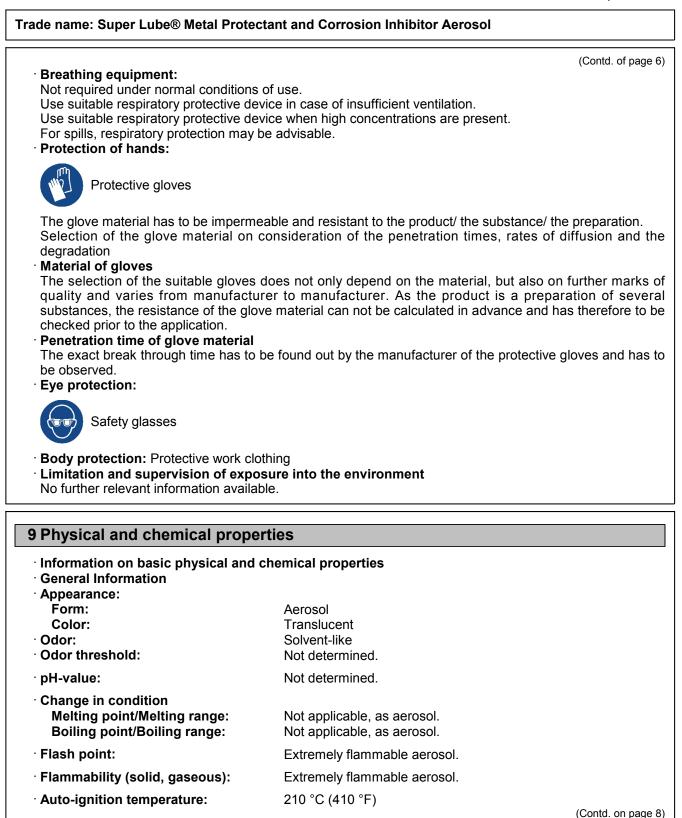

<ul> <li>Particular danger of slipping on leaked/spilled product.</li> <li>Wear protective equipment. Keep unprotected persons away.</li> <li>Ensure adequate ventilation.</li> <li>Keep away from ignition sources.</li> <li>Protect from heat.</li> <li>Environmental precautions:</li> <li>Do not allow to enter sewers/ surface or ground water.</li> <li>Inform respective authorities in case of seepage into water course or sewage system</li> <li>Methods and material for containment and cleaning up:</li> <li>Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, Pick up mechanically.</li> <li>Dispose contaminated material as waste according to item 13.</li> <li>Do not flush with water or aqueous cleansing agents</li> <li>Send for recovery or disposal in suitable receptacles.</li> <li>Reference to other sections</li> <li>See Section 7 for information on safe handling.</li> <li>See Section 8 for information on personal protection equipment.</li> </ul>	
See Section 13 for disposal information.	
' Handling and storage	
<ul> <li>Handling:</li> <li>Precautions for safe handling Use only in well ventilated areas. Keep away from heat and direct sunlight. Avoid splashes or spray in enclosed areas. </li> <li>Information about protection against explosions and fires: Protect against electrostatic charges. Emergency cooling must be available in case of nearby fire. Keep ignition sources away - Do not smoke. Do not spray on a naked flame or any incandescent material. Pressurized container: protect from sunlight and do not expose to temperatures explicit.</li></ul>	ceeding 120 °F / 49 °(
<ul> <li>Conditions for safe storage, including any incompatibilities</li> <li>Storage:</li> <li>Requirements to be met by storerooms and receptacles:</li> <li>Store in a cool location.</li> <li>Observe official regulations on storing packagings with pressurized containers.</li> </ul>	
Provide ventilation for receptacles. Avoid storage near extreme heat, ignition sources or open flame. • Information about storage in one common storage facility: Store away from oxidizing agents. • Further information about storage conditions:

# 10 Stability and reactivity

Reactivity	
· Chemical stability	
Thermal decomposition	on / conditions to be avoided:
Danger of receptacles t	pursting because of high vapor pressure if heated.
Possibility of hazardo	us reactions
Develops readily flamm	able gases / fumes.
	tures in air if heated above flash point and/or when sprayed or atomized.
Extremely flammable as	
	may contain product gases which form explosive mixtures with air.
Reacts with strong oxid	izing agents.
Toxic fumes may be rel	eased if heated above the decomposition point.
Conditions to avoid	
Keep ignition sources a	way - Do not smoke.
Keep away from heat a	nd direct sunlight.
Store away from oxidizi	ng agents.
Incompatible material	s: No further relevant information available.
	ition products: Carbon monoxide and carbon dioxide
